Contents Volume 119, 2004

Research papers
Quantification of soil features using digital image processing (DIP) techniques
S. Aydemir, S. Keskin and L.R. Drees . . . 1
Rapid, quantitative and spatial field measurements of soil pH using an Ion Sensitive Field Effect Transistor
R.A. Viscarra Rossel and C. Walter . . . 9
Organic carbon stock in forest soils in Japan
K. Morisada, K. Ono and H. Kanomata . . . 21
Topographic control of soil microbial activity: a case study of denitrifiers
I.V. Florinsky, S. McMahon and D.L. Burton . . . 33
Tropical Spodosols in northeastern Amazonas State, Brazil
A.M.C. Horbe, M.A. Horbe and K. Suguio . . . 55
Landscape patterns of vegetation change indicated by soil carbon isotope composition
S.H. Biedenbender, M.P. McClaran, J. Quade and M.A. Weltz . . . 69
Competitive adsorption of copper and zinc by a Bt horizon of a savanna Alfisol as affected by pH and selective removal of hydrous oxides and organic matter
J.O. Agbenin and L.A. Olojo . . . 85
A stable isotope study of soil water: evidence for mixing and preferential flow paths
C. Gazis and X. Feng . . . 97
Lead distribution in near-surface soils of two Florida cities: Gainesville and Miami
T. Chirenje, L.Q. Ma, M. Reeves and M. Szulczewski . . . 113
Combined ERT and GPR methods for investigating two-stepped lateritic weathering systems
A. Beauvais, M. Ritz, J.-C. Parisot, C. Bantsimba and M. Dukhan . . . 121
Carbon source of humic substances in some Japanese volcanic ash soils determined by carbon stable isotopic ratio, $\delta^{13}C$
S. Hiradate, T. Nakadai, H. Shindo and T. Yoneyama . . . 133
Soil hydraulic conductivity function based on specific liquid–vapor interfacial area around the soil particles
Sh. Zand-Parsa and A.R. Sepaskhah . . . 143

Book review . . . 159

Publisher's note . . . 161

Research papers
Carbon and monosaccharides of a tropical Vertisol under pasture and market-gardening: distribution in secondary organomineral separates
M.C. Larré-Larrouy, E. Blanchart, A. Albrecht and C. Feller . . . 163
Major element geochemistry and geomorphic relationships in Brazilian Cerrado soils
J.J. Marques, D.G. Schulze, N. Curi and S.A. Mertzman . . . 179
Moisture structures of laterally expanding fingering flows in sandy soils
K. Kawamoto, S. Mashino, M. Oda and T. Miyazaki . . . 197
Utility of ^{13}C for ecosystem carbon turnover estimation in grazed mixed grass prairie
D.C. Henderson, B.H. Ellert and M.A. Naeth . . . 219
The effect of irrigated rice cropping on the alkalinity of two alkaline rice soils in the Sahel
P.J.A. van Asten, J.A. van 't Zelfde, S.E.A.T.M. van der Zee and C. Hammecker . . . 233
The amount of secondary Al in two ploughed podzolic forest soils
N. Tanskanen and H. Ilvesniemi . . . 249

Geostatistical and GIS analyses on soil organic carbon concentrations in grassland of southeastern Ireland from two different periods
C. Zhang and D. McGrath 261
Vertical distribution of major, minor, and rare elements in a Haplic Podzol
G. Tyler 277
Analysis of 57 elements in Japanese soils, with special reference to soil group and agricultural use
A. Takeda, K. Kimura and S.-i. Yamasaki 291
Soil phosphorus fractions from toposequences of semi-arid Latosols and Luvisols in northeastern Brazil
M.S.B. Araújo, C.E.R. Schaefer and E.V.S.B. Sampaio 309
